|                             |                                                                                                                                                                                                                                              |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Swallowed:</b>           | Give water (if conscious). Seek medical advice.                                                                                                                                                                                              |
| <b>Eye:</b>                 | Wash with running water.                                                                                                                                                                                                                     |
| <b>Skin:</b>                | Remove contaminated clothing. Wash with soap & water.                                                                                                                                                                                        |
| <b>Inhaled:</b>             | Fresh air. Rest, keep warm. If breathing shallow, give oxygen. Medical attention.                                                                                                                                                            |
| <b>Advice To Doctor:</b>    | Emesis generally unnecessary. Debride for subcutaneous injection. Evaluate for respiratory distress. Consider lavage with cuffed tube. NO adrenalin.                                                                                         |
| <b>Fire Fighting:</b>       | Foam. Do NOT fight fire with water.                                                                                                                                                                                                          |
| <b>Spills and Disposal:</b> | Eliminate ignition sources. Absorb with dry agent. Stop leak if safe to do so. This material and its container must be disposed of in a safe way. To clean the floor and all objects contaminated by this material, use water and detergent. |

#### HEALTH HAZARD INFORMATION

|                                                                                   |                                                                                                                                                                                                                                                                                                                                                                              |

#### SAFE STORAGE WITH OTHER CLASSIFIED CHEMICALS

**X** — Must not be stored together  
**0** — May be stored together with specific preventions  
**+** — May be stored together

*Note: Depending on other risk factors, compatibility assessment based on the table above may not be relevant to storage situations, particularly where large volumes of dangerous goods are stored and handled. Reference should be made to the Safety Data Sheets for each substance or article and risks assessed accordingly.*

#### PRECAUTIONS FOR USE

|                                          |                                                                                                                       |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Appropriate engineering controls:</b> | General Exhaust Ventilation adequate.                                                                                 |
| <b>Glasses:</b>                          | Consider chemical goggles.                                                                                            |
| <b>Gloves:</b>                           | PVC chemical resistant type.                                                                                          |
| <b>Respirator:</b>                       | Type A-P Filter of sufficient capacity. (AS/NZS 1716 & 1715, EN 143:2000 & 149:2001, ANSI Z88 or national equivalent) |
| <b>Storage and Transportation:</b>       | Store in cool, dry, protected area. Keep out of reach of children.                                                    |
| <b>Fire/Explosion Hazard:</b>            | Toxic smoke/fumes in a fire. Reacts with water.                                                                       |
